Outlook & Valuation

The company's consolidated revenue grew on account of robust performance in both domestic and international markets. The government's reduction of Goods and Services Tax (GST) on tyres is expected to improve overall auto demand, enhance competitive advantages and increase market share, benefitting JK Tyre in the future. The company has passed on 100% of the GST reduction benefit to its customers, which is expected to further aid overall demand. With improved operational performance, increased operational efficiencies and a streamlined distribution network, JK Tyre is likely to continue its growth momentum. The company's commitment to sustainability and digital transformation is also a positive aspect. Thus, **we upgrade our rating on the stock to ACCUMULATE with a revised target price of Rs. 561, using a target multiple of 16.0x based on FY27E adj. EPS.**
